

Qualified Water Efficient Landscaper (QWEL)

QWEL is a training program developed to educate landscape professionals about the benefits of sound landscape design, management and irrigation practices.

Water-efficient landscape practices, including irrigation system programming and troubleshooting; plant selection; soils; and water management are among the subjects included.

The 20-hour training was developed by the Sonoma-Marin Saving Water Partnership and brought to San Diego by the San Diego County Water Authority and its 24 member agencies.

San Diego County
Water Authority

This list of professionals includes individuals who have earned a Qualified Water Efficient Landscaper certificate through training sponsored by the San Diego County Water Authority. The individuals listed provided all service information.

The list is provided as an informational resource only. It does not imply an endorsement, recommendation or promotion of any particular landscape professional or company and does not guarantee workmanship or materials.

For additional information, please contact us: qwel@wsamarketing.com
